

Settings for GlobalPoker

(www.warbotpoker.com)

Use Firefox browser (this version <https://ftp.mozilla.org/pub/firefox/releases/112.0/win32/en-US/>), and restrict browser auto-updates quickly (before it's updated):

Allow Firefox to

- Automatically install updates (recommended)
 - When Firefox is not running
 - Check for updates but let you choose to install them
- ⓘ This setting will apply to all Windows accounts and Firefox profiles using this installation of Firefox.

Turn off hardware acceleration:

Performance

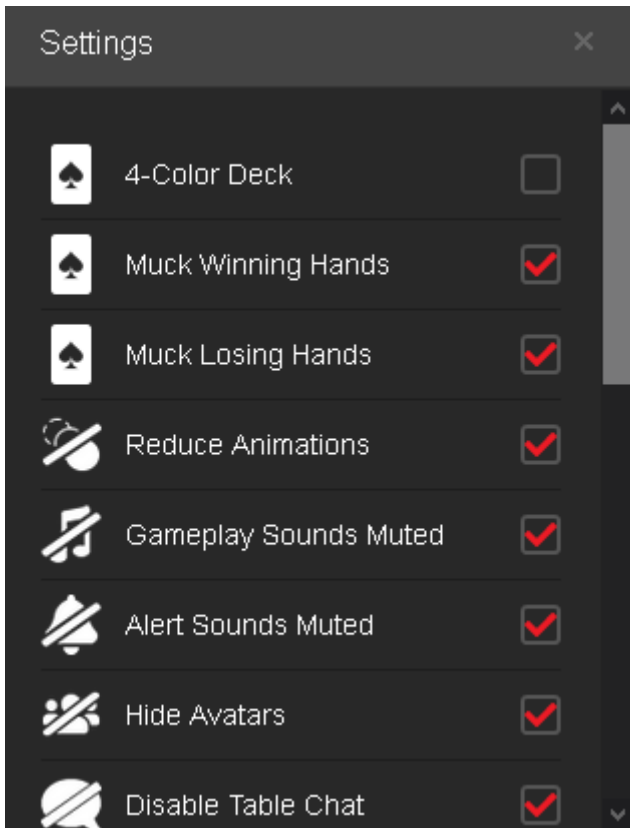

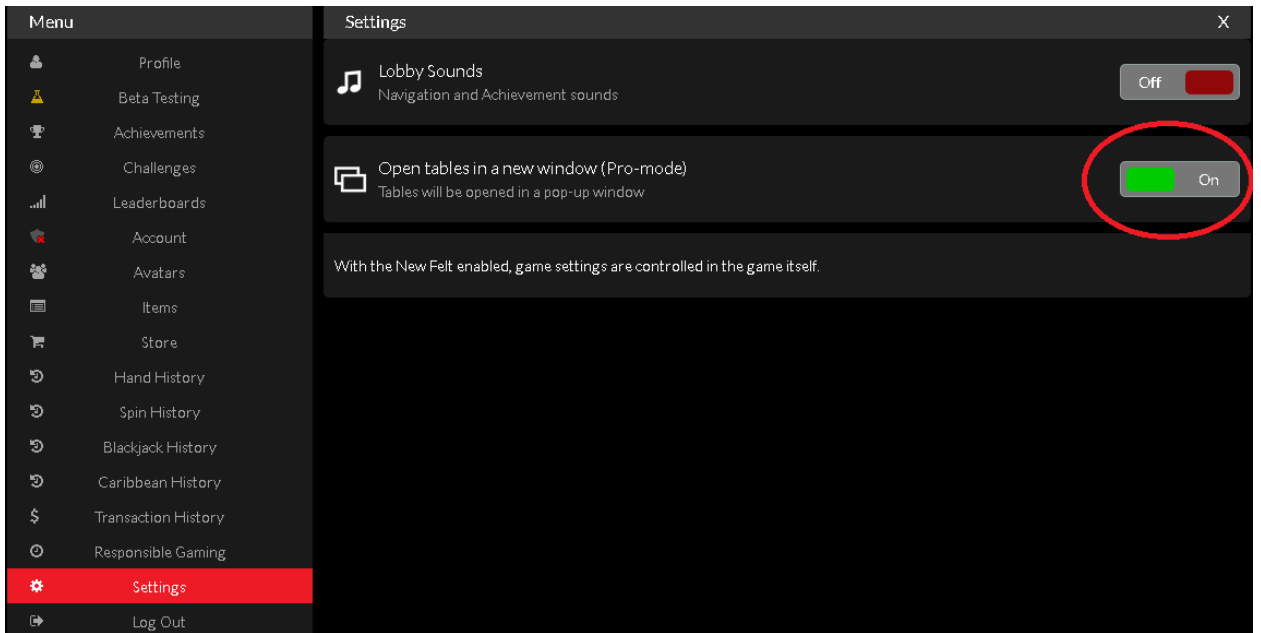

- Use recommended performance settings [Learn more](#)

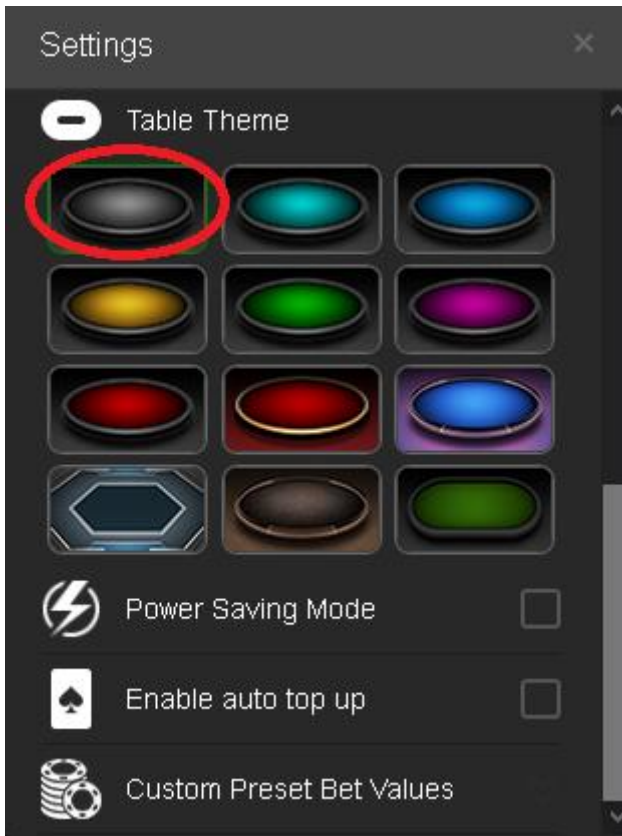

These settings are tailored to your computer's hardware and operating system.
- Use hardware acceleration when available

Poker client language must be English.

Install this extension in Firefox: <https://addons.mozilla.org/en-US/firefox/addon/url-in-title/?src=search>

Tested in Windows 10 (working in other Win version is not guaranteed).
